

**Mentone Flying Club
April 2007 Newsletter**

The April meeting of the Mentone Flying Club of Rochester was held Friday the 20th. at 7:00 PM in the Fulton County Airport meeting room.

Due to the absence of our Secretary and Treasurer, the first report was from Vice-President Trent Powell.

Trent reported that 69T and 78Q were good to go but 874 was reported to have failed a magneto check. On Saturday after the meeting Trent and John Cash cleaned the plugs which corrected the problem. With warmer weather here, the aircraft do not need to be primed before starting. This can coat the plugs and cause fouling.

Three new members were voted in to be Social Members. They are Dick Duzenbery, Tim Kneller, and Allen Barton.

Bob Wilson and Dave Lattimer reported that work was progressing well on the club hangar work and we should be ready for steel during the following week.

President Jim Ewen announced that Club Logo Shirts will be here before the pancake and sausage day, which is about six weeks away. He also reported that there are 28 metal chairs and 31 wooden chairs upstairs in the club hangar that we need to sell or give away. Members present voted to give them to a worthy organization.

Dave Lattimer made a motion which passed club approval to put new signs above the club's two hangars. Chad Lewis will be contacted to provide the signs.

Al Miller reported that member Shawn Bailey has been accepted for training in the U.S. Air Force to be a Tanker Pilot. Congratulations Shawn.

Ewen asked that there be no parking in the grass areas at the hangars, and move the date of the August meeting back one week, which will be after our 50th celebration, and hold the meeting at his home for a cook-out.

The next meeting will be the 3rd Friday in May. The public is invited.

Jim Ewen
MFC President
